about IPI

What is IPI?

Iowa Prison Industries (IPI) is the work arm of the Iowa Department of Corrections, employing inmates throughout the State of Iowa in manufacturing, farming and private sector work programs. Each business is 100% self-funding and, since 1999, has returned over \$10 million in revenue to the General Fund for education, taxes, family support and room and board.

At Iowa Prison Industries, we believe the cornerstone of an adult's life is *work*. Thus, IPI seeks to offer work vocations that will allow our offenders to learn skills in our nineteen businesses that are transferable to the streets upon release. We begin the training process of each inmate we employ by requiring them to apply for the job they desire. Moreover, they must demonstrate their willingness to build products that they are proud of. Each offender is evaluated on craftsmanship, timeliness and attitude, assuring our customers that only the highest quality products are delivered day in and day out.

No sale is ever final with Iowa Prison Industries. Our products must meet your expectations, not ours. You will find doing business with IPI a pleasure; after all, you own the store.

IPI strives to supply its plants with the latest equipment to enable our inmate employees to have marketable job skills upon their return to society. An example is this Holzma computerized saw located at the Ft. Madison plant.
