# LEMON CREAM POLISH

## Cleans, Shines, Protects

### DESCRIPTION:

This extra rich, creamy formula cleans as it is applied. It removes dust, smudges, fingermarks, spots and haze. Then, when lightly polished with a soft dry cloth, the surface develops a rich hand-rubbed luster.

This is a non-flammable liquid with just enough petroleum based solvent to cut greasy, oily film and fingerprints fast. Silicones make polishing friction-free. The dust cloth glides along leaving a bright, hard, dirt resistant shine in its path.

We highly recommend this cleaner/polish for use on fine furniture, woodwork, paneling and other finished wood surfaces.

It is also an excellent cleaner/polish for Formica, metal filing cabinets, kitchen cabinets, stainless steel, chrome, polished marble, leather, plastic, etc.

### SPECIAL INSTRUCTIONS:

DO NOT use on floors or allow mist to fall on floors. Contains silicones which may cause slippery floor conditions. SHAKE WELL before using.

### BENEFITS:

STOPS Shifting, FLY-Away Dust, CLEANED Surfaces Stay BRIGHT and FILM-FREE, Lemon Fragrance FRESHENS Room Air, EASY.

### DIRECTIONS FOR USE:

This is a highly concentrated cleaner/polish and should not be poured directly onto the surface to be cleaned. Use a soft cloth, approximately 18" to 24" square. Saturate with water and wring dry. Pour a small amount (approximately 1 tablespoon) onto damp cloth and work in to distribute evenly. Using this "treated cloth," rub surface to be cleaned. Use a dry, clean, soft, lint-free cloth to polish the surface to a beautiful, lustrous, non-greasy finish. Do not use this polish over other waxes or polishes.
