

ERGOERGO

*Revolutionary seating concept
combines the benefits of active seating
with a bold, contemporary design*

- Active sitting encourages children (and adults) to perform controlled “micro-movements” which improve blood and oxygen flow to the brain – increasing concentration by an average of 17%
- Allows the body to rock gently in any direction to build strength and flexibility
- Domed seat conforms to the body, maximizing the user’s comfort
- Gives you all the benefits of a stability ball without the seat rolling around, picking up dirt, or taking up a large amount of space
- Promotes wellness and productivity
- Comfortable, durable and easy on the budget
- When you sit on ErgoErgo, your body moves slightly, keeping your core muscles engaged
- 3 sizes available to fit most any user; choose KidsErgo for ages 4 - 9, ErgoErgo for ages 9 to adult, and ExtraErgo for adults up to 250 lbs
- Made in the USA of recyclable technopolymer
