## Service

Iowa Prison Industries is dedicated to providing Exceptional Service on your modular order from start to finish. Our sales, manufacturing, delivery and installation staff will work diligently to solve your office system challenges and respond to your needs. You will find doing business with IPI a pleasure.

## Compatibility

ImageMAKER Modular Systems are similar to and have connectivity to Herman Miller® Action Office® Systems Series 1 or Series 2. If you are adding to or reconfiguring any AO1 or AO2 system, IPI's ImageMAKER systems fully integrate with these systems; we can even color match most finishes and fabrics for a seamless transition.

## Remanufactured vs. New

A common question that arises when discussing remanufactured office systems is “Will I be able to tell the difference?”. And the answer is “No”; when IPI is done remanufacturing office system components, they will look and function as good as new!

The remanufacturing process is a labor-intensive process that provides excellent work training for IPI offender employees. All metal parts are sandblasted and repainted. Panels and flippers doors receive new fabric. New laminate and t-mold are applied to work surfaces as needed. The end result is an office system that looks and functions the same as new.

Herman Miller®, Action Office® and AO® are registered trademarks of Herman Miller, Inc., Zeeland, MI. Iowa Prison Industries is not affiliated with Herman Miller, Inc.

## Flexibility

ImageMAKER is one system that takes on the many different needs and tasks in your work environment. Plus, ImageMAKER will grow to meet your employee's changing workspace needs. An array of panel, work surface and storage solutions are available to customize your office environment.

Iowa Workforce Development, Des Moines

## Panels

Provide employees as much or as little privacy as needed by choosing from 34" high to 80" high modular panels. Multiple panel heights can be combined in one workstation. Fabric-covered hard-surface panels are the most popular ImageMAKER panels (shown at far left), but acoustical tackable panels are also available. Open up staff sight lines by adding optional openings for clear acrylic inserts to 57" and taller panels (shown at left).

## Work Surfaces

Configure a workstation in an almost infinite number of ways by combining rectangular work surfaces, corner units and peninsulas. Choose from 24" or 30" deep surfaces (peninsulas also available 36" deep). Provide a work surface for visitors with 14" deep counter caps that attach to top of the panels (shown at top left).

## Storage

ImageMAKER provides a variety of options for storage and organization. Overhead storage is available via shelf units with or without lockable flipper doors to fit 24" to 48" wide panels. Pedestal and lateral file cabinets are also available in numerous sizes and styles.

## Installation

IPI sales, manufacturing, delivery and installation teams will work closely together on your modular system order to ensure a smooth delivery and installation.

Your ImageMAKER modular system will be installed by a crew of offenders supervised by IPI civilian staff. The offenders gain valuable work skills under the guidance of civilian staff with many years of modular installation experience.

Our goal is to provide efficient and quality installation with as little interruption to your organization's daily operations as possible.

## Reconfiguration Services

When you need to make layout changes to your current system to accommodate the changing needs of your organization, IPI offers reconfiguration services. IPI will examine your current system, cataloging all reusable components and parts. By reusing as many system components as possible and then supplementing with remanufactured parts as needed, IPI will help your organization save valuable funds over purchasing new.

## Color Selection

Iowa Prison Industries has a variety of color selections to work in any décor. Panel trim, raceway and filing colors match Herman Miller Action Office colors for a seamless transition when you are adding to or reconfiguring a current office layout. For fabric-covered panels, tackboards and flipper doors, choose from a variety of fabrics including a selection of fabric produced with 100% recycled polyester. The choices for laminate work surfaces is virtually unlimited.

# about IPI

## What is IPI?

Iowa Prison Industries (IPI) is the work arm of the Iowa Department of Corrections, employing inmates throughout the State of Iowa in manufacturing, farming and private sector work programs. Each business is 100% self-funding and, since 1996, has returned over \$10 million in revenue to the General Fund for education, taxes, family support and room and board.

At Iowa Prison Industries, we believe the cornerstone of an adult's life is *work*. Thus, IPI seeks to offer work vocations that will allow our offenders to learn skills in our nineteen businesses that are transferable to the streets upon release. We begin the training process of each inmate we employ by requiring them to apply for the job they desire. Moreover, they must demonstrate their willingness to build products that they are proud of. Each offender is evaluated on craftsmanship, timeliness and attitude, assuring our customers that only the highest quality products are delivered day in and day out.

No sale is ever final with Iowa Prison Industries. Our products must meet your expectations, not ours. You will find doing business with IPI a pleasure; after all, you own the store.

IPI strives to supply its plants with the latest equipment to enable our inmate employees to have marketable job skills upon their return to society. An example is this Holzma computerized saw located at the Ft. Madison plant.

# MISSION STATEMENT

To employ staff and inmates  
who are dedicated to providing:

**Exceptional Service**

**Reasonable Prices**

**Quality Products**

It is this commitment to excellence that will allow our business to remain self-funding, achieve growth, provide more jobs for inmates and staff and assume a national leadership role in correctional industries.

## **Vision**

By ensuring our mission is achieved, we will have assisted the Department of Corrections in protecting the public, staff, and inmate safety through vital work programs that will ensure the offenders' chances of a successful return to society as tax-paying citizens upon their release.
