Dear IPI Sign Customers,

Due to increased raw material, production, and delivery costs, IPI will be implementing a price increase of 10% to 50% on all signs, decals, banners, and related products effective **November 23, 2026.**

In particular, the raw aluminum market has experienced significant volatility and steep price increases over the past two years. IPI's cost of aluminum has risen 32% to 77% since 2024, depending on the aluminum thickness and sheet size. IPI has been absorbing these increased costs, as we have not increased our sign pricing since 2022. However, these price increases are necessary for Iowa Prison Industries to continue to be sustainable in our mission to provide work training to the incarcerated men and women in Iowa's prisons.

Iowa Prison Industries appreciates your continued support of our inmate work training programs. If you have any questions, please reach out to the IPI Customer Service Team at 800-332-7922 or ipicustomerservice@iowa.gov.

Ann Baughman
